

## Celebrate the Holidays with “Gifts of Hope”

We invite you to take the time to bring your organization, office or family together to celebrate the holidays with a “Gift of Hope” to children and families who need your help.

Our ‘needs’ list is long and includes the wishes of children from birth to 18 years, and requests from their parents for groceries and grocery gift certificates. The families we work with do not receive any other help during the holiday season.

Individuals, groups and families are needed to participate in our annual Gifts of Hope program and bring hope to the vulnerable children and families we serve.

There are three ways to give:

- ~ **Support an entire family.** Purchase groceries or grocery store gift certificates and grant the gift wishes of the children in the family.
- ~ **Put up a giving tree in your office or organization.** We’ll bring ornaments with the wishes of children on them and your employees/ members may choose an individual from the tree.
- ~ **Conduct a toy drive.** Collect toys and items for children and we’ll pick them up and distribute them to the children and families we serve. Toys are needed for children of all ages.
