

## Meet Monica...

10 year old Monica is as colorful and charismatic as her pictures show. She will steal your heart with her energetic and imaginative personality. Monica doesn't have a dull bone in her body and is packed full of hobbies and interests. Her most favorite hobby is going to Disneyland, and she "loves" all of the Disney characters. She is such a fun-loving girl, that she would befriend Mickey, Pluto, and Goofy in a heartbeat. She loves having fun, enjoys playing "dress-up," coloring, watching cartoons and Disney movies, working on art projects, swimming, fishing and being outdoors. She also loves animals and especially enjoys the zoo. She's a very brave girl who craves excitement, such as roller coasters and rides at theme parks. Monica's favorite holiday is Halloween because she loves to dress up and already knows what she is going to be this year; and of course, she craves the sugary candy she gets every Halloween. "Sugar" is her favorite food!

Monica is legally free for adoption and needs a loving, patient, active and adventurous family to call her own. Monica would do best in a two-parent home, with at least one stay at home parent who can help her work through her frustrating times, help her make good choices, and help her identify and understand her feelings. She would thrive in a structured setting. She continues to work on peer relations daily and is learning how to share, how to interact appropriately with others, and how to create her own boundaries, as well as respect the boundaries of others.
